

Cherry blossom cotton candy pizza

- 1 As human beings, we all have our own individual tastes and preferences. However, some things in this world are loved almost everywhere, such as pizza, candy, and cherry blossoms. So what would happen if you combined all three of those things? You'd get a cherry blossom cotton candy pizza. That might sound like something that could only exist inside a wonderful dream, but you can actually order this amazing culinary innovation at a restaurant in Tokyo right now.
- 2 The restaurant in Kanda, a Tokyo neighbourhood, has made a slight change to its popular cotton candy pizza, replacing the regular cotton candy topping with a version that's sprinkled with cherry blossom petals. The thin-crust, three-cheese pizza is served with a sweet honey ginger sauce that you drizzle over the cotton candy.
- 3 Much like the cherry blossoms themselves, though, there's a limited window of time in which you'll be able to enjoy the cotton candy pizza. It made its debut on March 27, and will only be sticking around until April 2, so if you want to experience all that this season has to offer in Tokyo, make sure to visit the restaurant before or after one of your cherry blossom parties in the park.
